

New trends, room for
"warm" ideas

Modern shapes and forms, plenty of space with flexible, functional solutions: the home is evolving. Aristons keen eye for new stylistic trends and changes in life styles is looking for new ideas to meet emerging needs. Like this built-in coffee center providing at a touch many wonderful warm sensations from a traditional espresso to a frothy cappuccino, you decide.
Increasing your design options; by creating additional space with new functionality and taste.

Coffee has conquered new spaces

Coffee Centers

ed. 01/08

At your finger tips!

A highly ergonomic design. Nothing could be more stylish or more practical than the menu buttons integrated right in the control panel. Let the coffee center prompt your every command with a light touch to the menu keypad as you create your coffee sensation.

1

Easy access right in front of your eyes.

4

Ease of use also means easy access. Access to the coffee beans, water container as well as areas requiring periodic cleaning. Just press the control panel and it slowly drops open allowing you to make your necessary adjustments.

Providing you to use a wide array of cup sizes, from small espresso cups to travel mugs up to a height of 6".

Making the most of space.

Whether you want to integrate the coffee center into your kitchen or into another spot in the home your counter space will not be sacrificed. It's shallow depth and sleek styling integrates into any cabinet design.

2

Not your ordinary coffee maker.

Thanks to the 2 heating element systems you can create a latte or cappuccino simultaneously as the coffee is being brewed. This convenience attends to even the largest dinner party. Or make a hot tea as you brew that perfect espresso.

5

Light or Strong.

The advantage of customized brewing to the cup makes it possible for you to preset the coffee strength to your preference. Easily increase or decrease to the liking of your family and guests with a turn of the dial.

3

Open to new possibilities.

6

Coffee at a touch, new design options or just dare to be different. In any case, the coffee center provides unlimited choices for you, your friends and your home.
